**FL PLUMBER**

## What is a **TAPP** Agreement?

There are two important aspects of the TAPP program. First, it includes annual inspections of your entire plumbing system/ filtration system, including your water heater(s), water filtration system, salt/ brine tanks, drains, sinks, faucets and toilets. This preventative maintenance plan provides you with early detection of any issues and could prevent major repair or damage from aging parts of your infrastructure.

If you have any questions about our plumbing maintenance agreement, feel free to reach out to us at **855-FLPLUMBER** or **WWW.FLPLUMBER.COM**. Our staff is ready to answer any questions and provide you additional information regarding all our services.

# What's included in FL Plumbers TAPP Program?

FL Plumber's TAPP program stands for Total Assurance Plumbing Program. This program provides comfort to the homeowner that their plumbing needs will be met by the state's #1 Plumbing Service with Top Priority! This detailed, in-depth maintenance and inspection program will ensure priority preventative maintenance and early detection for any significant issues, which could prevent serious damage to the home and property. Our comprehensive checklist evaluations includes:

- An annual inspection of your water heater/tankless water heating system
- An annual inspection of your faucets, drains, toilets, filtration system
- Unlimited service calls with no trip charge
- A 10% discount on all minor repairs (labor)
- Up to 10% discount on replacement equipment (labor)
- Priority scheduling

# How can you benefit from signing up our TAPP Program?

• **Saves you time.** *FL Plumbers TAPP includes priority scheduling. We will be there on priority whenever you have a plumbing issue. Our expanded staff is ready to meet your needs quickly.*

• **Saves you money.** *There are a couple of ways that TAPP will save you money. We will provide service calls without a travel charge or fee. In addition, the annual inspections that we perform will improve the efficiency of your plumbing system, which could lower your overall costs.*

• **Prevents future breakdowns.** *Our in-depth inspections provide a prospective approach in preventing future plumbing system issues. We can provide early detection of leaks/breakdowns which can turn into a homeowner's worst nightmare.*

• **Extends the life of your plumbing system.** *The tasks that we perform during our annual inspections will ensure that you maximize the lifecycle of your plumbing systems.*

**1 year: \$ 149.95**

**3 year: \$ 379.95**
